JEBA SHAJIDA

Frontend Developer | Interactive 3D Developer

Dhaka, Bangladesh | 01750120656 | jeba.18feb@gmail.com

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with a foundation in frontend development, interactive 3D experiences, software systems, and data-driven problem solving. Skilled in JavaScript, React, Node.js, Three.js, Blender, and Unity, with professional experience in software development research and IT operations, alongside projects in web dashboards, 3D simulations, and machine learning. Interested in building engaging digital products that combine usability, engineering, and visual creativity.

TECHNICAL SKILLS

Frontend: JavaScript, React, HTML5, CSS3, responsive UI development
Backend & Integration: Node.js, REST/API integration, basic server-side development
3D & Interactive: Three.js, Two.js, Blender, Unity, OpenGL
Programming & Data: Python, C++, Java, MySQL, database management, machine learning fundamentals
Systems: SCADA/HMI concepts, system monitoring, troubleshooting, UAT testing, networking fundamentals
Tools: Git/GitHub, VS Code, Microsoft Word, Excel, PowerPoint
Professional: Analytical thinking, communication, teamwork, adaptability, quick learning

EXPERIENCE

Software Development Research Assistant | NGX Department, Ulterior Engineering

June 2026 – September 2026

• Contributed to software development and research activities within the NGX department.

IT Department Intern | Bisorgo

February 2026 – May 2026

• Supported software development, IT operations, and web-based MIS/CRM reporting for HEKS Bangladesh.

SELECTED PROJECTS

HEKS Bangladesh – Web MIS Dashboard

Designed and developed a browser-based dashboard interface for NGO management workflows. Implemented KPI cards, beneficiary records, activity tracking, and report views using HTML, CSS, and JavaScript.

SteadyStep – Elderly Care Support System

Collaborated on a care-support solution featuring health monitoring, emergency alerts, voice control, reminders, and family communication. Contributed to system diagrams, UI/UX design, software analysis, and testing.

Station_Mountain_City – City & Landscape Simulation

Created an OpenGL-based animated environment featuring an aircraft landing, moving vehicles, drifting clouds, and city–mountain scenery.

Animal Image Classification using k-NN

Built a machine-learning workflow to classify cat, dog, and panda images through preprocessing, feature extraction, and model evaluation.

Student Classification using Neural Network

Developed a multilayer neural network for student-category classification, applying data preprocessing, backpropagation-based training, and performance evaluation.

EDUCATION

B.Sc. in Computer Science and Engineering | American International University-Bangladesh (AIUB), Dhaka
2022–2026 | CGPA: 3.52

H.S.C. | BAF Shaheen School and College, Jashore | GPA: 5.00 (2020)
S.S.C. | BAF Shaheen School and College, Jashore | GPA: 5.00 (2018)

RESEARCH

• “A Comparative Analysis of Classification Data Mining Techniques: Deriving Key Factors for Diabetes Prediction” – published in IEEE QPAIN, 2026.
• Multimodal Model for Enhanced Pneumonia Diagnosis in Medical Imaging.
• Rethinking Traffic Management in Dhaka: Sustainable Strategies for Congestion Reduction.
• MAD-YOLO: Motion-Aware Directional Depthwise Convolutions for Traffic Sign Detection.

RELEVANT COURSEWORK & LANGUAGES

Data Science, Data Mining, Computer Vision and Pattern Recognition, Software Engineering, Artificial Intelligence, Linear Algebra, Calculus, Probability Theory.
Languages: Bengali and English.
